

In the name of the initiators of the *Repeal Trianon!-list*, which intends to run in the elections for the European Parliament, Zoltán Bottyán, János Drábik and Endre József Kiss have provided our Press Service with their European Parliament election program, which has been finalized on the birthday of our famous leader Prince Ferenc Rákóczi II, which we present below.

Repeal Trianon!
European Parliament Election Program

Justice for Hungary!
Justice for Europe!

***„Oh, blessed Hungary!
Do not let yourself be led astray.”***
Dante Alighieri – *Divine Comedy* (1321)

Justice for Hungary!
Justice for Europe!

***„O' beata Hungaria!
Si non sci lascia piú malmenare.”***
Dante Alighieri – *Divina comedia* (1321)

1. The time has come: ***Repeal Trianon!***

*Trianon was an attempt at national genocide, which affects us even today, trampling on our national honor. There is no future for Hungary or for Europe in Trianon. Therefore, not only our motto, but our name too is: **Repeal Trianon! Justice for Hungary! Justice for Europe!***

2. We are counting on you: ***Let there be peace!***

Neither Humanity nor the Earth can withstand another world conflagration. Hungarians are a peaceful people. For a thousand years, as a sovereign state, Hungary has avoided wars of conquest. For a thousand years, she has defended Europe and Christianity. We want a re-examination of Trianon, with peaceful means and the strength of the law, in the name of the Helsinki Accords.

3. The time has come: *Stop the migration!*

In agreement with the government of Hungary, we say no to the migration. Hungary and every Hungarian have the inalienable right to say so because of the attempt at national genocide at Trianon. This migration is Europe's Trianon!

4. We are counting on you: *An acceptable retirement-system!*

The pension guaranteed by the government should be proportional to the number of educated descendants. The proposal by the Oxford professor of demography, Jenő Váralljai Csocsán, is not only just and equitable, but is also the best encouragement for parents to choose to have children. Let us not forget: We are not talking only about educated blood-descendants but educated descendants in general. Europe – if it accepts this proposal – will solve the problems of the work-force with its own resources and will create the sources for its own welfare-system.

5. The time has come: *Stop the corruption!*

6. We are counting on you: *Invigorating public health system!*

A health policy based on prevention! A place for the powers of natural healing.

7. The time has come: *We demand the elimination of the currency-credit swindle!*

The currency-credit, in the way it has run its course, is a crime. It is equivalent to genocide. It has broken down the Hungarian middle-class. We demand a punishment for this crime, and the government's acceptance of responsibility for the ruin of hundreds of thousands of people!! The Hungarian middle-class has to be rebuilt. The National Bank should come under the control of the State! The issuing of money and the central bank responsible for it should be placed under the control of the State. There has to be an end to the slavery of interest. The issuing of money should be secured by work!

8. We are counting on you: *Harmony with Nature!*

Water is the greatest treasure for life on Earth and its most important security. Collaboration on a global scale is necessary for us to save the waters of the Earth. It is crucial that the geopolitical unity of the Carpathian Basin be recreated as soon as possible. Within two decades, Europe needs to convert completely to green energy.

Nature must be protected. Hungary could play a leading role in this. More people in Hungary joined the Clean Europe Network than in all the other countries of the EU together. „The Hungarian people is a community with deep historical roots, whose members relate to their creator, the all-powerful God, and to Nature in the same way.”
[1]

9. The time has come: *The Motherland is not for sale! Family farming! Freedom from GMO!*

In defense of the Hungarian motherland, the country's Agreement of Accession to the EU should be renegotiated. The organization of individual farmsteads to protect the family. A system of agricultural support, which, in five years, would allow the farmers to replace the importation of the GMO treated foodstuff with their own produce!

10. We are counting on you: *Traditions – Knowledge – Rebirth!*

The Hungarian culture must be seen in a new light, meaning all that the Hungarian intellect has created. Culture must stop Hungarians and all of Europe from sliding down the slope into the civilization of death. Christian spirituality! The true history of the Hungarian people should be included in the curriculum! Use the Kodály method in teaching and the Bartók model in the arts! Knowledge oriented nation-building! Scythian-Hun sports and games! Achieve our rebirth by basing it on our traditions and using the tools of knowledge.

11. The time has come: *We want Hungarians to be recognized as an ancient people!*

„The Hungarians are a people that has survived in some enigmatic way, who have preserved the language of an important civilization that existed before the Greco-Roman civilization, in some smaller measure its culture and, in even smaller measure – through the organic nature of the civilization, the mythology and the archaic folk-tales – its body of beliefs. Since the antiquity of the Hungarian people in Europe has been indisputably proven by the most advanced scientific methods . . . it cannot be doubted that the international scientific and political communities sooner or later must acknowledge the Hungarians as ‘the founders of one of the most original and most important Bronze and Iron-Age civilizations of Europe’”.^[2]

12. We are counting on you: ***We want, and we recommend the Country of the Holy Crown!***

Without the historic Constitution of Hungary, that is the Country of the Holy Crown, there is and cannot be a viable Hungarian Nation. The legal continuation of the historic Constitution must be reinstated. Hungary's historic Constitution is the most perfect constitution, which should be taught in every school and should be adopted by other countries – stated two eminent Czech intellectuals, the historian Frantisek Palacky and the political-scientist Rudolf Kucera.^[3] We, Hungarians, should offer to the states and nations of Europe, who are rushing toward their own Trianon, the Country of the Holy Crown as a state-model, which uniquely ensures the national communities their self-determination and maturation. There are three pillars supporting this state-model: the adoption of the divine scale of values in the life of the state, equal human dignity for all people and the absolute priority of life. The ringing of the noon bells calls the Hungarians, to accept their fate, and binds them to defend Christian Europe.

***We are counting on you! The time has come!
Repeal Trianon! Let there be peace, freedom and harmony!***

Budapest, March 27, 2019, the date of the birthday of our famous leader, Prince Ferenc Rákóczi II.
